Subject: DSM1 Re-calibration Update for the March 20 Workshop

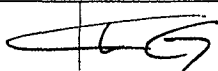

I have attached a packet prepared by Chris Enright and Amy Little for the Technical Workshop scheduled for March 20. It is a summary and update of the DSM1 recalibration project that we initiated for the CALFED Bay-Delta Program in November 1996. We plan to attend the Technical Workshop to address any questions about our work.

If you have questions or comments, please contact either Chris Enright at (916) 227-7521 or me.
